Eric Lamarque

Dean IAE Paris-Sorbonne
University Paris I Panthéon Sorbonne

Dear fellows scholars and researchers, bienvenue à Paris, Paris 1 Pantheon Sorbonne University in our Business school. We have been awaiting this day since June 2021 when, for pandemic reasons, Aciek in Paris was... On Line. It was impossible to consider that the job had been done and ACIEK was rescheduled in Paris in 2024, during the Olympic year. An incredible feeling emerges from this specific moment thinking that Pierre de Coubertin founded the International Olympic Committee in 1894 at La Sorbonne! More than ever, all eyes are on our city. Since its foundation in 1253, Sorbonne has turned towards the world and its motto reminds us its ambition to be "here and everywhere on the earth". So, we are therefore delighted to host an international conference such as ACIEK. The theme of this year "INNOVATIVE AND MEANINGFUL KNOWLEDGE: TOWARDS A SUSTAINABLE BUSINESS" invites us to see how management and entrepreneurship research contributes to the sustainability debate by reaching out virtually and in person. We wish you all a warm welcome.

Such an event is fully in the spirit of our university and ideas that supported the foundation of Sorbonne, share knowledge, contribution to social and societal well-being, giving food for thought, influence the decision of managers and entrepreneurs. These are ongoing challenges for researchers and colleagues around the world and we are happy to welcome them where Robert de Sorbon decided, more than seven centuries ago, to give everyone the opportunity to access higher education.

We are convinced that your contribution will generate many comments, initiate new collaborations, will be strengthened by academic debate and will contribute to explain and highlight the path of innovation and help us to evaluate the social impact of our research. Innovation, social impact, sustainability are at the heart of the scientific project of Sorbonne and of the new alliance, Una Europa, in which we participate with other prestigious universities. We thank all the editors who have joined us and help us to strengthen this impact through high-level journals, supporting the visibility and impact of the ACIEK conference.

Enjoy your stay in Paris.

20TH ACADEMY OF INNOVATION, ENTREPRENEURSHIP, AND KNOWLEDGE CONFERENCE

ACIEK holds its Conferences in top international universities. The overall theme of the Conference is broken down into the same topic or different subtopics for each journal; this is decided by the editor-in-chief of each journal. The topics can thus be adapted to the research streams and editorial policies of each journal, with the total number of sessions or tracks varying according to the number of journals.

One of the outcomes of the Conference is to select papers that, depending on the specialty of each journal and the quality of the papers, may be published in the affiliated journals. Ethical guidelines are a core principle of the Academy of Innovation, Entrepreneurship, and Knowledge Conferences. Academic and professional integrity and excellence are central to the ACIEK Conferences. The Code of Conduct and Best Practice Guidelines are aligned with COPE (Committee on Publication Ethics). All affiliated journals fully comply with the principles of transparency and best scholarly practice.

The abstracts of all papers accepted to be presented at the Conference will automatically go to the Conference Proceedings, which will be published with an ISBN. The best papers will have the chance to be published in the affiliated journals.

ORGANIZING COMMITTEE

Prof. Jérôme Caby

Prof. Eric Lamarque

Prof. Didier Chabaud

Prof. Géraldine Michel

Prof. Juan Piñeiro Chousa

Paola Berdugo, Administrative Manager

Raphael Haget, Research assistant
